## PROFILE

I am a former legal assistant and licensed paralegal turned frontend developer who has a passion for UX Design and chasing pixel perfection.

As a legal assistant, I learned that my ability to quickly learn new technical skills and problem-solving were my strengths. This gave me the motivation to pursue my longtime love of coding. After graduating from the Web Development Program at BrainStation, I have been working as a frontend developer at an SEO marketplace startup. This role has taught me how to develop applications with a focus on user experience.

## TECHNICAL SKILLS

JavaScript, React, Vue.js, JQuery, HTML, CSS, SASS, Bootstrap, Figma, Node.js, Next.js, PHP, Laravel, Laravel Forge, WordPress, Firebase, SQL, MySQL, Axios, Github, Jira, Bitbucket, Postman, SEO

## EXPERIENCE

---

### Frontend Developer | [SearchEye.io](https://www.searcheye.io)

OCT 2022 - PRESENT, TORONTO, ON

- As a core member of the product team and sole frontend developer, I collaborate with the Founder, Head of Product, and Product Designer in building and maintaining an SEO marketplace.
- Leveraged Bootstrap 5.3 to create a custom design system with the added challenge of making it accessible to both backend developers and designers.
- Translating Figma designs into pixel-perfect user interfaces
- Manage and build new content and features on various WordPress sites, as well as delegate tasks to other web developers.
- Implement feedback from users and key stakeholders of the app.

### Junior Software Developer | Renterii Inc.

SEPT 2022 - FEB 2023, TORONTO, ON

- Collaborating with the founder and growth team to build a dynamic landing page for the app.
- Designing the website in Figma and implementing it using JavaScript, React, Next.js, and SASS.
- Attending conferences and networking events to grow the Renterii brand and help onboard new partners

## PROJECTS

---

### [DazzleDash](#)

A cleaning app that connects local cleaners to users. Designed for my final project for my UX Design course.

### [DocTurn](#)

A document management app that makes keeping track of documents easy.
